UBIQUE AND AXIOM / BOUNDARY & SCOPE

Price: EUR 3,900 per chosen profile

One approved isolated trace, one optimized incumbent baseline, an independent acceptance oracle and up to 30 paired repetitions per agreed scenario/configuration.

Buyer effort and delivery

Two scheduled 20-minute sessions, for scope lock and final decision. All other technical preflight in writing. Seven business day target from accepted complete inputs.

Deliverables

One-page GO / NO-GO / INCONCLUSIVE executive finding, normally 4-8-page technical evidence annex, delta/limit matrix, reproducibility method and SHA-256 manifest.

Fees and change control

50% at signature and 50% at delivery, plus applicable taxes. Extra calls, environments, lab costs, re-runs, changes and engineering require separate written fixed-price authorization.

Exclusions

No production intervention, real sensor/actuator control, bank settlement, certification, SLA, guaranteed ROI, unlimited consultations, private algorithms, source code or bitstreams.

Ownership

Buyer owns its submitted data, researcher retains pre-existing and new proprietary know-how. Public terms are not binding until signed. A documented NO-GO is a complete valid outcome.
